To Whom it may concern:

Please enter this as a statement of opinion regarding the settlement in this case. It appears to me and most of the contacts I have that the only outcome here that is right and proper is to allow our capitalism to have its full control in matters such as this. Monopolies are in existence in many places and it is often for the benefit of the consumer. Policing by the means that has transpired is of value to keep larger firms in control and insure that unfair practices are not allowed, but to any understanding person further litigation on this subject is counterproductive. Please take steps to close this matter and spend the funds on development and more productive pursuits.

Thank You!
